

STAINLESS STEEL EQUAL CROSS

SS Equal Crosses connect four pipes of equal diameter at 90° angles, creating balanced fluid flow in multiple directions. Manufactured from SS 304, 316 and Duplex grades available in sizes from ½" to 24" and schedules SCH 10 to XXS. Conforms to ASME B16.9 and ASTM A403 standards. Widely used in hydraulic, chemical and petrochemical piping systems where symmetrical branching is required under high-pressure conditions
