

STAINLESS STEEL EQUAL UNION

Equal Unions connect two pipes or tubes of the same diameter, providing a reusable, tight-sealing joint with union nut construction. Fabricated from SS 304, 316 and Duplex, sizes from 1/8" to 1", pressure rated to 6000 PSI. Built to ASTM A182 and ISO 8434-1 specifications. Ideal for applications in chemical plants, hydraulic circuits and lab instrumentation systems requiring easy disconnection.
