

STAINLESS STEEL MALE CONNECTOR

Male Connectors have male threaded ends for connecting tubing to female-threaded components. Made from SS 304, 316, and 316Ti, sizes: 1/8" to 2", pressure rating: up to 6000 PSI. Threads: NPT/BSP; Conforms to ASTM A182, ISO 8434-1. Ideal for instrumentation, gas distribution and pneumatic control systems requiring precise, corrosion-resistant threaded connections.
