

STAINLESS STEEL M/F ELBOW

Male/Female Elbows combine a male threaded end and a female threaded end for directional pipe connections typically at 90°. Constructed in SS 304 and 316 These elbows are used in plumbing, instrumentation and low-pressure chemical systems. Sizes: 1/4" to 2"; Pressure rating: up to 6000 PSI. Conforms to ASTM A182 and ANSI B16.11 standards. Preferred for compact, leak-proof and threaded piping systems.
