

STAINLESS STEEL REDUCING BUSHING

Reducing Bushings threaded into larger fittings to accept smaller male-threaded components. Made from SS 304 and 316. Thread sizes range from 1/4" x 1/8" to 4" x 2". NPT/BSP threads with pressure ratings up to 6000 PSI. Built to ASTM A182 and ASME B16.11 standards. Frequently used in plumbing, pressure control and gas piping systems for size transition.
