

STAINLESS STEEL REDUCING HEX NIPPLE

These nipples connect two pipes of different diameters with male threads on both ends and a central hex for easy tightening. Made from SS 304, 316, sizes: 1/4" x 1/8" to 4" x 2", pressure ratings: up to 6000 PSI. Complies with ASTM A182 and ASME B16.11 standards. Used in compressed air, steam and water lines requiring leak-proof, pressure-resistant connections.
