

STAINLESS STEEL UNION CROSS

Union Cross fittings connect four tubes in a cross configuration, each with a union nut for easy assembly and disassembly. Made from SS 304/316 available in sizes from 1/8" to 1" OD, with pressure ratings up to 6000 PSI. Compliant with ISO 8434-1 and ASTM A182. Used in process control and instrumentation setups requiring multi-directional flow in compact areas.
