

# STAINLESS STEEL UNION TEE

Union Tees allow a three-way connection with removable union joints, making pipeline installation and maintenance easy. Made in SS 304, 316, sizes: 1/8" to 1" OD, pressure rating: up to 6000 PSI. Compliant with ASTM A182 and ISO 8434-1 standards. Used in instrumentation panels, hydraulic circuits, and chemical piping systems for branching flows and ease of servicing.
